

Instant Article Wizard Review

Do you think writing a blog article is too time consuming? Outsourcing content creation too expensive? If you are struggling to write articles and/or if you are tired of researching all details and important aspects of a subject you'd like to write about, than the [Instant Article Wizard](#) is definitely a tool to have a closer look at! There are many [content creation tools](#) out there but I haven't seen a tool, that can do what the [Instant Article Wizard](#) can do. This awesome tool helps you write articles on any subject in just minutes!

Check out this VIDEO and see the [Instant Article Wizard](#) in action: [leadplayer_vid id="53B55F4F202D5"]

[7-day trial for only \\$7](#)

One of my favorite features is that the Instant Article Wizard lets you break down the research into sub categories. So even when you don't know what the main aspects on a subject are, this tool will cover them. Also the fact that it is able to get the job done in multiple languages is simply amazing! Another awesome feature is the rewrite function with the built in thesaurus from [The Best Spinner](#). This feature let's you rewrite articles on a phrase and word level with synonyms from The Best Spinner's database. You can manually edit the content or simply click through the recognized words and phrases to replace them with The Best Spinners synonyms. The built in spellchecker comes in handy when editing content manually. You can also rearrange sentences easily. When you're done editing you can check if your article contains any duplicate content with a push of a button (supports Copyscape). The [Instant Article Wizard](#) highlight parts of the content that did not pass Copyscape yellow. You can then edit that part to eliminate any duplicate content. Check out the video above, if you haven't done so already, to see the tool in action!

Instant Article Wizard Review
